

Sprint #, SCRUM Meeting # for Team 7 Speech Expression

Prepared by: Tyler Nichols

Meeting Date: 19 April 2022

Meeting Attendees

1. (Zhuo) Danny Chen
2. Tyler Nichols
3. Mark Sturtevant

Meeting Agenda Items

- Discuss our progress since our last SCRUM meeting.
- Plan the submission of our project's Sprint 2 deliverables.
 - Schedule deadlines for GitHub changes.

Status Update Since Last Meeting

Accomplishments:

- We have determined a basic dark-theme color scheme, and we have some ideas for warm-tone and cool-tone schemes, but we are undecided on which ones to pursue.
- Allow users to input text for script comparison.
 - The comparison itself is under development but still unfinished.
- Added a set of radio buttons that allow a user to toggle the Summary page's transcribed text data (filler word, repeated phrase, and word speed information).
- Implemented color coding for word speed data provided in a user's transcribed text, with the intensity of the color relating to the user's talking speed.

Tasks Completed:

Task Description	Assigned to	Completed? (yes/no)
Implement script comparison features.	Mark	Yes
Determine some prospective color schemes.	Tyler	Yes (partial)
Add a toggle for the Summary page's transcription display.	Danny	Yes
Enable the product to provide a user with constructive feedback based on their performance (talking speed, filler word quantity, etc.)	Mark	Yes (partial)

Before The Next Meeting

Plans:

- Finalize our Sprint 2 project deliverables.
- Prepare our Sprint 2 materials report.
- Finish some partially-completed tasks for this sprint.

Task Assignments:

Task Description	Assigned to
Implement additional color schemes.	Tyler
Color code script differences.	Mark
Add an options panel to the Summary page.	Danny

Minutes from Previous Meeting

The previous meeting started with a discussion on our progress around the time of our Easter break and an acknowledgement of the nearing deadline for the current sprint. After reviewing the work left to finish for Sprint 2, we determined our final goals for this sprint to be developing our product's usability, style, and script comparison functionality. We divided the sprint's remaining software labor and scheduled our last SCRUM meeting before concluding the meeting.
